## 1. Descripción del Incidente

I've received a call from the FO that Mrs. Smith requested a doctor because her grandson Oliver (4 years) hit the top of his head. He was playing in the garden near the barbecue and when he stood up, he hit his head on the right edge from the barbecue. I've passed by to check up on the situation and I met the doctor too on site, he examined Oliver and luckily the cut was superficial, and he did not need stitches or a visit to the hospital, further examination was not necessary but supervision during the next couple of hours from Oliver's behavior were important.

I've added photos from the barbecue where the accident happened. I've asked if I can make photos from the wound for insurance purposes, but Mrs. Smith declined.
